

Freeway-FW

Individuals and organizations harnessing true potential

Freeway-FW

Through smart and articulate styling, the Freeway FW modular bench system is highly flexible, capable of assigned seating arrangements or a free-address plan. Either way, its rich functionality is designed to raise productivity.

Outline of Freeway-FW

Simple styling and generous leg space give a sense of freedom

Designed to make office planning endlessly customizable

The workstation that encourages knowledge creation

Freeway-FW is a fully modulated bench system specialized to open plan workplaces. The unique invisible structure consisting of minimum components, provides versatility in use, less load in every step of product life, and a model look that blends well with any interior design.

Module

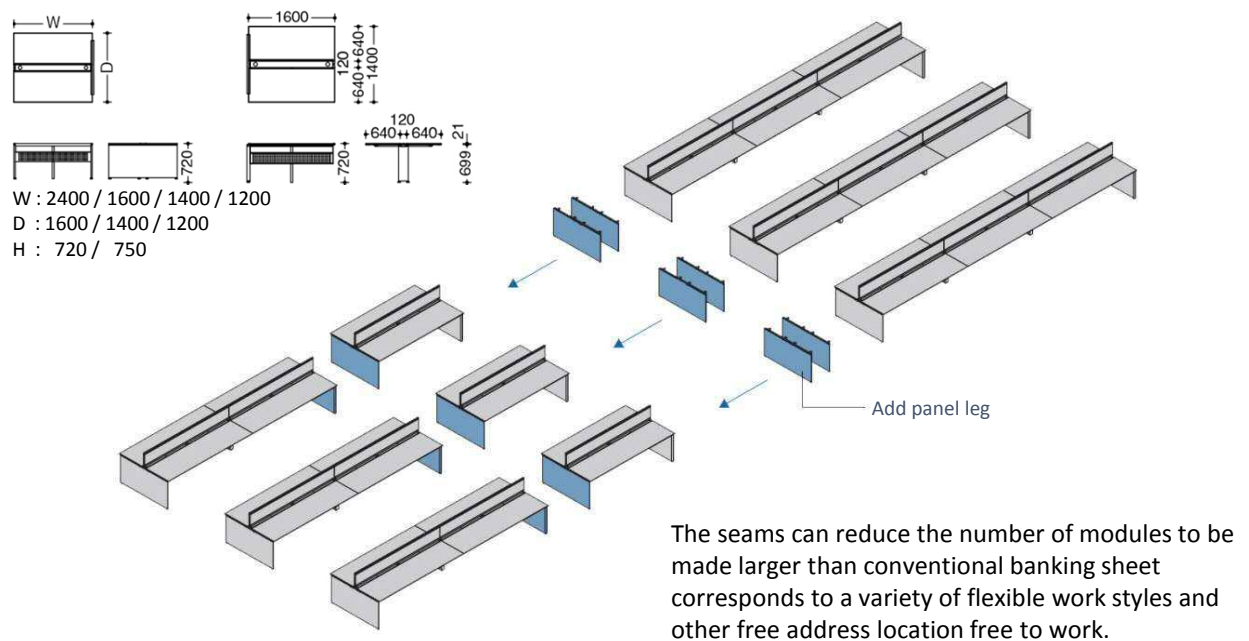

Use in any position middle, end, left or right

No legs provide maximum span 2400mm long

“Freeway-FW” is up to 2400mm wide desk tops to the lineup. Our traditional product, 1800mm in width above the top plate had to be placed between the legs supporting the top plate to reinforce the center.

However, “Freeway-FW” by the roof structure, can support up to 2400mm without an intermediate leg of a long span.

Flexible work styles

The wide range of accessories allow various possibilities in an office setting.
By adding options, it can even transform a non-territorial workplace to personal workstation.

Specification

Wiring

Cover is hinged for easy access and has prepared two simple postfix expression, we also considered simply of maintenance and tidy wiring duct cover.
